Ray Moody

Summary

- Independent Smart Hands Field Technician with four years of experience developing Layer 1, structured cabling, and network troubleshooting expertise through hands-on project execution and direct mentorship with enterprise teams.
- Skilled in network troubleshooting, IP configuration, and task-driven field operations consistently ensuring reliable first-visit connectivity restoration for enterprise environments and that project deliverables are completed to specification.

Technical Skills

- **Technical & IT Skills:** TCP/IP, DHCP, DNS, LAN, SD-WAN, wireless access points, Cisco routers/switches, NAS, hardware support, Cat6, fiber optics, Ethernet, low-voltage, structured cabling, cable routing, network implementation and troubleshooting
- **Programming & Development:** HTML5, CSS3, PHP, MySQL, SQL, XML, GitHub version control, software development fundamentals, API integration
- **Data & Analytics:** Data analysis, data visualization (Power BI), statistics, research methods, database management (Microsoft Access, SQL)
- **Cloud, DevOps & AI:** AWS, DevOps concepts, Artificial Intelligence tools, prompt engineering
- **Web & Digital:** Web design, SEO, e-commerce, content strategy
- **Systems & Platforms:** Microsoft Office Suite (Excel, Outlook, Access), Blackboard LMS, document management systems, LexisNexis, Westlaw
- **Technical & Professional Skills:** Technical writing, instructional design, project and program management, budgeting, cost management, quality control
- **Operations & Field Experience:** Electrical systems, blueprint reading, residential construction, renovation, warehouse operations, order fulfillment, scissor lift operation, delivery logistics

Certifications

- TEFL: Qualification to teach English as a Foreign Language
- OSHA General Industry Safety and Health
- OSHA Aerial and Scissor Lift Expired 07/2023
- OSHA10
- Substitute Teaching Certification
- Driver's License
- Forklift Certification
- Non-COL Class C

Professional Experience

dba Mister Moody – Louisville, KY **06/2022 – Present**

Network Field Technician and Structured Cabling Specialist

- Provide structured cabling, cable termination (CAT6/CAT5e), fiber optic installation, network testing, and home automation solutions across industrial, retail, residential, and data center environments.
- Experienced working both independently (1099) and with traveling teams, executing new construction, remodel, and upgrade projects.
- Certified aerial and lift operator; adept at working safely at height in industrial and data center settings.

- Conduct structured cabling surveys, validate pathways, terminate cables, and ensure compliance with TIA/EIA standards.
- Execute disciplined network operations, including device factory resets, static IP configuration, switch port validation, and end-to-end connectivity testing.
- Restore offline wireless access points and network devices during first-visit resolutions, minimizing client downtime through coordination with remote NOCs.
- Document as-built diagrams, cabling layouts, and network configurations for seamless handoff and operational readiness.
- Edgeboot Extension Survey Project: Surveyed and measured ~300 ft. of CMP-rated CAT6 along a U-shaped pathway for network extension.
- Validated compliance with TIA/EIA standards and client SOW; produced materials/labor estimates and as-built documentation for deployment.
- Remodel & New Construction Infrastructure Installation: Conducted site surveys and produced as-built documentation for data center and commercial client handoff.
- Performed rough-in CAT5/5e/6 and fiber cabling, terminations, labeling, and first-pass connectivity testing in new construction and remodeled facilities.
- Delivered fully documented, standards-compliant data center setups ready for operational deployment.
- Switch Port Validation & Network Equipment Decommission: Performed end-to-end switch port testing, IP assignment, and connectivity validation across multiple enterprise sites.
- Safely decommissioned switches, routers, firewalls, and other network devices while maintaining site organization, inventory, and updated as-built documentation.

Ingenium Talent – Louisville, KY **09/2022 – 02/2024**
Administrative Assistant

- Reported directly to director of purchasing and supported purchasing team initiatives.
- Confirmed part orders and utilized AS/40 0 to update over 150 technician stockrooms; assisted distribution center staff with kit assembly and shipment of work orders.
- Conducted stockroom queries to assess product availability in technicians' stockrooms and calculated average usage to forecast new safety stock levels.
- Reviewed and resolved work order disputes to maintain optimal inventory levels.
- Analyzed inventory activities and order tracking data to examine unmet service level agreements in order to identify the root causes of incomplete orders.
- Contributed to end-of-life and returned parts inventory reconciliation projects by coordinating return of products from technicians to the distribution center and quantifying unused returned parts destined for restock.

Jefferson County Public Schools – Louisville, KY **08/2017 – 06/2020**
Certified Substitute Teacher

- Maintained routines prescribed by normal teacher; documented student attendance and daily progress.
- Completed professional development training related to classroom management, instructional strategies, and accommodating the diverse needs of at-risk students.
- Implemented common core learning objectives by utilizing the Literacy Design Collaborative Framework to create literacy-focused instructional lesson plans.

- Incorporated digital technology into activities; awarded preferred teacher status, 2018-2019.
- 95% of assignments accepted were located at Title I schools in West Louisville.
- Facilitated course work for more than 2,800 elementary, middle, and high school students at more than 42 schools throughout Jefferson County.

ESL/ TEFL (Abroad) – China, ME **09/2003 – 05/2017**
TEFL Teacher

- After graduating university in 2003 embarked on a sojourn that was supposed have been a gap year before returning stateside to enroll in law school; however, had different plans and in the years between 2003 and 2017 enjoyed a career as a TEFL teacher.
- Facilitated more than 10,000 hours of ESL/TEFL learning programs for learners of varying fluency in both the private and public sector on subjects that included business negotiation, oral communication, reading comprehension, and creative writing.
- Developed curricula material (i.e., assessments, rubrics) for private school administrators.
- Procured authentic realia to create conducive learning environments.
- Promoted oral English discussion clubs at colleges.
- Provided TEFL teacher training to aspiring ESL teachers.
- Coordinated oral English communication assessments for the entire seventh grade student body of a boarding school.

Education

International TEFL Teacher Training -·United States **2007**
